

Please read these instructions before operating and retain for future reference.

SAFETY INSTRUCTIONS

1. After using, turn off electric switch and disconnect plug.
2. Do not remove or replace jars when the motor is ON.
3. Do not overload the motor by hard and heavy loads.
4. Do not heat parts or wash in hot water.
5. Do not fix or attach parts when there is any fruit pulp clinging to the fitting/moving parts.
6. Do not put ice cubes into jar without adding one cup or more of any desired liquid.
7. Do not grind raw meat in jar
8. Do not store food in jar.
9. Always cool all hot vegetables, fruit and sauces before putting into jar.
10. Do not run the unit without load.

OPERATING INSTRUCTIONS

HOW TO FIX (MARK-I)

1. Fit the spout cover on the pulp container.
2. Place middle body on the motor housing.
3. Place the juicer mesh in the container and fix on motor coupling.
4. Replace the transparent container cover.
5. Ensure to close clamps on both sides of the container before using the juicer.

HOW TO USE AS JUICER

1. Fruit or vegetables should be cut into small pieces so as to easily pass through feeder opening.
2. Place any suitable glass or cup under spout for juice collection.
3. Switch the juicer on. Now put fruit or vegetable into the feeder opening.
4. The fruit or vegetable is completely crushed by the cutter. Juice and pulp are automatically separated. The transparent cover shows clearly when it is time to empty container. Press key marked off to stop juicer.

HOW TO USE AS BLENDER-GRINDER

1. Pull out the clamps which are on both sides of motor housing and remove the middle body.
2. Place jar firmly on the motor housing. Then twist the jar a little left and right to fit intact.
3. Plug in into a closeby electric socket. Put all ingredients into the jar and place cover firmly on the jar.
4. Press speed selector key as per requirement. Press key marked OFF to stop blender/grinder.

THE RIGHT FUNCTION FOR THE RIGHT UTILITY

It is vitally important to determine the correct speed to stir, blend, chop, liquify or grind. Push various speed keys to find the best results.

LIQUIFY (Speed Key-1)

Now liquify vegetables like carrots, bitroots etc. and fruit like apple, orange, pomegranate etc., concentrate juices and more.....effortlessly.

WET GRINDING (Speed Key-2)

No anxiety and no labour, now you can get pastes/chutneys or whole spices, coconuts etc.....in no time.

DRY GRINDING (Speed Key-2)

Grinding coffee beans, spices, coarsely crumb bread, granulated sugar etc. will be as easy and simple.

CLEANING & MAINTENANCE

1. Wash each part in cold or lukewarm water. The juicer mesh also functions as the filter so wash with extra care.
2. After washing, wipe wet surfaces to dry perfectly.
